

LANDJET™
CUSTOM MOBILE OFFICE VANS
Driving Business Forward ~ (781) 982-1319

The Presidential LandJet 111-b Mobile Executive Office

w/ Executive Desk, Assistant Desk & Conference Area

FLOOR PLAN

The Presidential LandJet 111-b

This design shows an executive desk forward with privacy partition, an assistant's desk and a large conference area workspace for 4 in the rear. The 32" TV / Computer Monitor mounted above the driver partition window for DVD, laptop sales presentation and Satellite TV. A printer cabinet also houses a refrigerator for cold beverages.

Rear fold down sofa bed seating can comfortably accommodate 4 at the conference table while 2 sit in the captain's chairs working at desks. Cabin lighting will illuminate work areas at night. The drop-in table would be stored when not in use.

This vehicle incorporates EVDO/3G internal Wi-Fi/Mi-Fi, CAT-5e LAN, and VGA switching for 4 computers to share the 32" monitor and a USB printer network.
